

REVISION AND ANALYSIS OF MODERN GRAFFITI

26/11/10

In collaboration with the artist Nacho Magro and the Bilbao collective, **CONSONNI's GRAFFITI LIBERATION FRONT (G.L.F.)** is an artistic project that analyses graffiti and other forms of (re)presentation of urban subculture as signs that produce symbols that represent an ideology, as well as the appropriation by certain social groups of tools that allows them to have a form of expression of their own from their position in society. G.L.F. also analyses the capitalization and commercialization of this kind of aesthetic and the formalization of its radicalism within the system itself.

You will also be able to participate in the debate session called "Graffiti and Systems, Bridges and Borders" on Saturday, November 27th at 6:00pm at [Hika Ateneo](#) in Bilbao.

The session will be divided into three parts: "From the public space and its trivialize" by Francesc Muñoz, "From graffiti to street art" featuring presentations of Francesc Muñoz, Remedios Vicent, Mischa Canibal de Parafernalia, Angelo Milano (from FAME Festival) and Pablo España (Democracy Collective), followed by a round table with speakers led by Nacho Magro.

MTN DAILY
BARCELONA (BCN)

Fieles a nuestros principios, desde 1994, seguimos apostando por la innovación, la calidad y el respeto a las personas y al medio ambiente. Seguimos siendo una empresa manufacturadora ya que la calidad de nuestro producto lo requiere. Producimos exclusivamente en Barcelona por las mismas razones. No nos dedicamos simplemente al mercado generado por el Graffiti, también nos sentimos parte de este movimiento ya que hemos crecido con él. No somos una multinacional y tampoco somos máquinas, somos personas con una gran pasión por lo que hacemos cada día. ¡Somos la Montana Colors Original!

Loyal to our principles, from 1994, we keep investing our energies in development, quality, people & environment. Full respect. We keep manufacturing paint. To keep our quality, for the same reason, we produce exclusively in Barcelona.

We don't feel just like part of a business, we feel ourselves as part of the Graffiti Movement, we grew up with it.

We are not a multinational company, we are not machines, we are people with a passion for what we do everyday.

We are the Original Montana Colors!
